Graduate Mathematics

for BUSINESS, ECONOMICS and FINANCE

PROBLEMS *and* SOLUTIONS

Contents

1	Solutions to textbook problems	9
1.1	Linear systems and Gaussian elimination	9
1.2	Vectors and vector spaces	19
1.3	Matrices and determinants	24
1.4	Eigenvectors and eigenvalues	32
1.5	Unconstrained optimization	49
1.6	Constrained optimization	60
1.7	Differential equations	76
1.8	Difference equations	91
1.9	Systems of differential and difference equations	95
1.A	Complex numbers and trigonometric functions	100
1.B	Integration	102
2	Exam problems	107
2.1	Final exam BI, January 2021	107
2.2	Final exam BI, November 2019	108
2.3	Final exam BI, November 2018	109
2.4	Final exam BI, November 2017	110
2.5	Final exam BI, December 2016	112
2.6	Final exam BI, December 2015	113
2.7	Final exam BI, December 2014	114
2.8	Final exam BI, December 2013	116
2.9	Final exam BI, December 2012	117
2.10	Final exam BI, December 2011	119
2.11	Final exam BI, December 2010	120

Contents

3	Solutions to exam problems	123
3.1	Solutions to final exam BI, January 2021	123
3.2	Solutions to final exam BI, November 2019	130
3.3	Solutions to final exam BI, November 2018	135
3.4	Solutions to final exam BI, November 2017	141
3.5	Solutions to final exam BI, December 2016	148
3.6	Solutions to final exam BI, December 2015	153
3.7	Solutions to final exam BI, December 2014	161
3.8	Solutions to final exam BI, December 2013	166
3.9	Solutions to final exam BI, December 2012	173
3.10	Solutions to final exam BI, December 2011	178
3.11	Solutions to final exam BI, December 2014	183
